FIRST MOVER GROUP

Financial Statements **2019**

This is First Mover Group

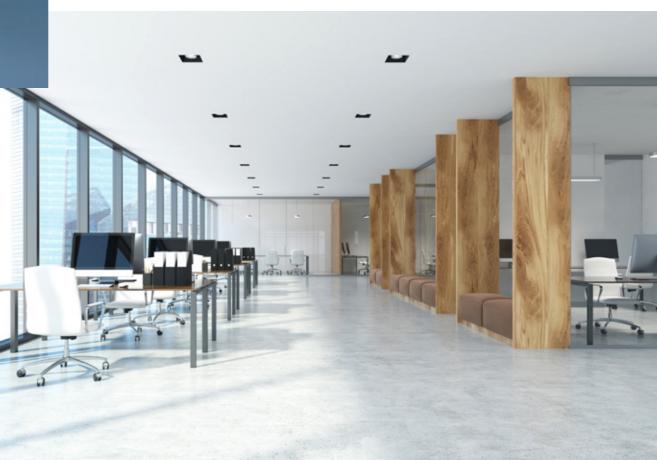

outsourcing of logistics making their fixed costs variable.

Based on growing investment in infrastructure, technology and a highly specialized workforce, we are developing a unique product which will add significant value to our clients.

Each year in Scandinavia, thousands of firms are signing up for new rental contracts, totaling up to a multibillion NOK market. Subsequently, many of these contracts result in relocation or upgrades of workplaces. This is our market. Few to none can deliver what we can, because we keep moving.

Our services:

- Commercial real estate brokerage and tenant advisory to ensure the best possible deal focusing on total life cost
- Advisory in relation to workplace relocation
- Planning and execution of physical move
- Outsourcing of logistics and assembly of high end equipment

FMG is a rapidly growing company in Scandinavia providing advisory and logistic services to firms in relation to office relocation. FMG works to maximize our clients' workplace investment. We provide a full circle of services; tenant advisory and commercial real estate brokerage, workplace design, planning and execution of the relocation and the redelivery of properties. We also provide logistics and assembly services for high-end products. We offer our clients a complete concept for

Management summary **302019**

Q3 2019 was an exceptionally eventful quarter for First Mover Group. We successfully placed a NOK 200m bullet bond in the Scandinavian capital market.We would like to give a thanks to the investors that put their trust in us and who believe that we can generate value for them.

Alongside the bond placement we had further developments of significant strategic nature. Firstly we got a foothold in Gothenburg through the acquisition of InReco Gøteborg AB. This becomes the building block from which we develop other capabilities and

pursue a dominant position locally. InReco Gøteborg AB is a furniture assembly company consisting of predominantly framework agreements.

Secondly we bought Realia AS. Realia is a leading tenant representation company in the market of finding offices for clients. They are located in Oslo and will strengthen our position in this market. Alongside Realia AS was the advisory company Realia Prosjektrådgivning AS. This company was also acquired following the Realia purchase.

All three companies are independently profitable and their competencies will strengthen the value chain and service offering to our clients, increasing our positioning as a network based service provider in the Scandinavian market.

Q3 operational activity was mixed. Sales was strong after summer, further strengthening the order book for rest of 2019 and bolstering the strong expectations for 2020. We had the pleasure of, among others, to sign frameworks agreements on Statens Vegvesen and Deichmanske Library in addition to Statens Lånekasse and SR Bank on the project side. Execution of services was lower than expected with some major construction of offices in the center of Oslo delayed onto 2020 and thus resulting in less draw on our framework agreements. As a consequence, moving and assembly services delivering somewhat below expectations.

Going into Q4 we are full ahead into high season. October has been at record highs and November and December is expected to come in at budget.

Towards the end of this quarter we expect to launch the first version of "Virtual Relokator" in the Norwegian market, strengthening our digital competitive advantage. In addition we will organically open offices in the Malmøregion, further strengthening our network.

2020 promises to also become an eventful year for First Mover Group. The activity in, especially the Oslo market, is at record highs and the other regions report strong development. The historical organic growth levels seem to be carried forward into 2020.

On the M&A side we continue our conversations trying to build a dominant position in the Swedish market. We target M&A growth levels as previous years. ITinvestments and scale in operations leads to the expected EBITDA margins to be maintained or slightly increased.

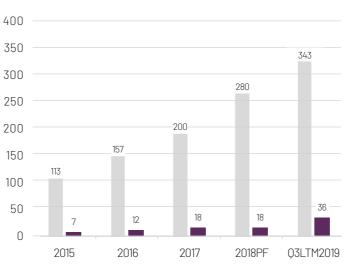

Tore Martinsen CFO

Jan – Sept 2019

YTD sales came in at NOKm 256 in third guarter of 2019, which is an increase of 27,1% compared to the same period last year. Some of the major constructions of offices in Oslo was delayed into 2020 and this resulted in a lower than expected operational activity in third quarter.

YTD EBITDA came in at NOKm 24,1 compared to NOKm 9,6 in 2018. The EBITDA uplift in 2019 is driven by positive market development compared to last year. Exceptional items are related to payroll and integrations

03LTM revenue and EBITDA (NOKm)

LTM 2019

LTM sales increased by 27,7% from 2018 to 2019. The sales growth is driven by positive development in new contracts, increase in framework agreements and the acquisition of Realia.

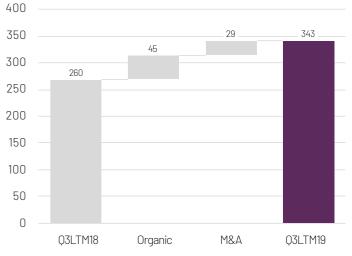

SALES 256,1 EBITDA 24,1 SALES 342,5 EBITDA 36,0

LTM EBITDA grew from NOKm 20,4 to NOKm 36. The strong EBITDA development is caused by increased contract margins, economies of scale and the acquisition of Realia. The continuous development of Sweden is also contributing to an increase in EBITDA.

Highlights

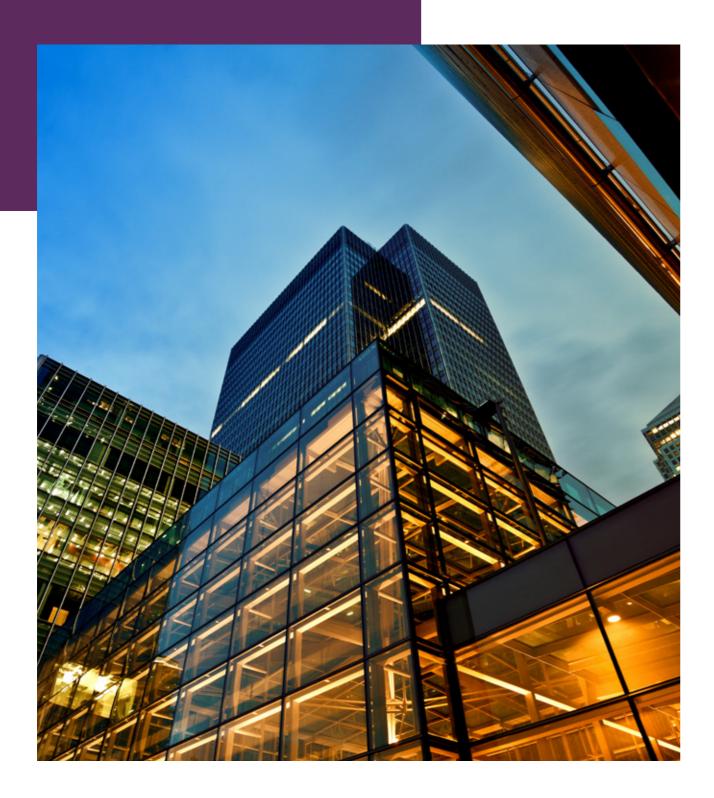

- Good development in new contracts
- New framework agreements signed
- Some delays of large projects
- Lower draw than expected on framework agreement
- Acquisition of RT Inreco Gøteborg AB in Sweden

Sources of growth (NOKm)

Philosophy

A firm's workplace is its main physical perimeter which should encourage employees to perform their daily work in an efficient manner. A firm's workplace is its main physical perimeter which should encourage employees to an efficient way of performing their daily work. It is the main display of a firm's values, put into practice. The workplace also represents a significant cost, not only to the firm's financial statements, but also to our environment. Commercial real-estates denote a heavy burden to the environment through construction and operation. The footprint is depending on a building's technical characteristics and how well we utilize its spaces. A conscious management of your workplace can represent large savings, both financially and environmentally.

Financial calendar 2019

Q4 2019 will be published no later than February 28, 2020

Definitions

TOTAL REVENUE

Sales Net of VAT.

EBITDA

Earnings before interest, tax, depreciations and amortization.

EXCEPTIONAL ITEMS

Items that are unusual or infrequent in their nature.

EBIT

Earnings before interest and tax.

NET INTEREST EXPENSE/ INCOME

Financial income minus financial expenses including exchange rate differences related to financial assets and liabilities.

All figures are presented in million NOK, rounded off to the nearest thousand. From a presentation standpoint, certain individual figures may therefore differ from the computed totals.
